## Fire Department (UCFD)

The University City Fire Department is hosting a Vaccine Clinic and needs non-medical volunteers to assist with check-in and logging vaccine documentation. You don't have to be an employee of University City to volunteer. If you know of someone or an organization that might be interested, please forward the information. (see Attachment 1)

Below is the link for the Non-Medical Volunteer Signup for the University City Vaccine Clinic. The Site operates Tuesdays and Thursdays each week. The Non-medical staff is needed to check-in patients and to log the vaccine documentation. This is critical to the success of the site and we need ten volunteers per shift. Your help is greatly appreciated. You can work either a 4 hour shift from 8am-noon or noon-4pm, or you can work the whole 8 hours 8am-4pm. Lunch is provided and you **may** be able to get a shot for you or a family member but not guaranteed. The clinic site is located:

If someone wants to get an appointment for a COVID19 vaccine from St Louis County, they should go to:

STLcorona.com or  
Call: 314-615-2660

Either will get you on the list for an appointment.

Every day the clinic site operates, there may be extra shots available due to "No Shows" or various other reasons. Because we cannot waste even one shot, we need to have an active list of people to call who want/need the vaccine. If you know of any University City resident who needs a vaccine, email the persons information to the email address below. We will keep a running list and use it to call for any vaccines available.

Click the link below to email the person's **Name, Phone number, email address** and the name of the **referring person** to:
