Community Report: 0821-35

Honorable Terry Crow,
Members of the City Council,
and University City Residents:

Administration

The City of University City has initiated a community visioning process to identify what our community could be like in 2040. The comprehensive planning process will determine guidelines for how we can get there. In addition to identifying our strengths, weaknesses, values and priorities, the visioning process will give residents, business owners, local institutions, and other stakeholders the opportunity to express ideas about our future. Through a series of meetings, workshops, surveys, and growth-scenario comparisons facilitated by local leaders, participants will create a vision, including written materials that reflect our goals and priorities and describe how our community should look and feel in the years to come.

U. City's visioning process will encompass the next two decades. While a visioning process can be a standalone project, our results will serve as a foundation upon which the City's comprehensive planning process, which is expected to commence in early 2022, will be built. The following are opportunities for public input and engagement.

COMMUNITY SURVEY: University City Vision 2040 will begin with a survey that asks about a wide range of issues that are shaping the future of our community. This survey will run concurrently with other phases of the visioning process, including in-person engagement. Although the survey will remain open through the end of the project, it's important that we receive high levels of participation before the October Think Tank. Links to this online survey are available at <https://lab2.future-iq.com/university-citys-community-visioning-project/>

OCTOBER THINK TANK: In-person engagement will begin with the Think Tank, which will highlight some of the results from the survey and produce plausible scenarios through in-depth planning with numerous stakeholders. The entire community is invited to participate. The City will also invite representatives from community institutions to be involved to ensure well-rounded representation.

Two Think Tank sessions will be held and for continuity, it's important that as

many attendees as possible participate in both sessions. Sessions will be held 6:00 – 9:00 p.m., Thursday, October 14 and 9:00 a.m. – 12:00 p.m., Saturday, October 16. At this time, both Think Tank sessions will be at the Heman Park Community Center. Masks and registration are required to attend. Given the uncertainty of the COVID situation, these sessions are subject to change. Maximum registration levels will be determined by the safety protocols in place at the time the sessions occur. Registration will be based on a first come-first serve basis and the link to register will be available at <https://lab2.future-iq.com/university-citys-community-visioningproject/> and www.ucitymo.org/Vision2040. Please register no later than October 13.

Public Works

City-wide Bulk Item Collection is coming up! This season’s work is scheduled to begin in the East area on Monday, September 13, 2021|and will be performed in that work week. Accepted bulk items include furniture and appliances. Electronics will no longer be accepted in the bulk item collection. Participating residents are asked to place no more than 3 large items or 7 smaller items within 1-3 feet of curb or street pavement for collection.

Monthly Street Sweeping of thoroughfare and multifamily residential zones is to be conducted in the below-listed parking restriction posted zones:
