Summer Safety Tip

Lawn equipment is often easy to steal and sell. Typically, these types of thefts increase in the summer months, but it's important to be vigilant all year round. Here are some tips on how to keep your equipment safe and secure.

- Mark all of your equipment with a security pen or labels so they are uniquely identifiable. Make sure it's clearly marked as a deterrent.
- On larger items such as ride-on mowers, consider installing a GPS tracker.
- Make a list of all your equipment and include photos, make, model, serial numbers and description of any unique marks or identifiers.
- Check if your insurance policy covers theft of lawn equipment.
- Whenever possible, store your equipment in a lockable shed or garage and make sure it's alarmed and covered by CCTV.
- Use a motion-activated floodlight in your yard and the areas surrounding where your equipment is stored.
