Holiday Safety Tips

HEADING OUT FOR THE
EVENING?

Keep your home looking occupied
by leaving a light on or setting a
timer for indoor and outdoor
lights. A well-lit home deters
potential intruders and ensures
you come back to a safe,
welcoming space.

Holiday Safety Tips: Keep Your Home Secure This Season

The holiday season is a time for joy, togetherness, and creating cherished memories. Whether you're traveling or staying close to home, taking a few simple precautions can ensure your home stays safe and secure.

One effective way to deter potential intruders is by making your home look occupied. A well-lit home sends a strong signal that someone is present, making it less appealing to burglars. Here's how you can keep your property safe:

Leave a Light On: Whether you're stepping out for a few hours or an extended period, keep a few lights on indoors. A bright, lived-in appearance can make all the difference.

Use Timers for Lights: Timers for both indoor and outdoor lights are an excellent investment. Program them to switch on and off at different times to simulate normal activity in your home.

Outdoor Lighting: Ensure that your outdoor spaces are well-lit, especially around entryways, driveways, and walkways. Motion-sensor lights are another great way to deter unwanted visitors.

Your safety and peace of mind are top priorities. If you're looking for more holiday safety tips or need assistance, don't hesitate to contact the University City Police Department. Our officers are here to help make your season as safe and stress-free as possible.
