Protect & Serve: University City Police Department

The University City Police Department (UCPD) continues to demonstrate its commitment to community engagement by actively participating in events throughout University City that bring residents together and support local causes.

Recently, UCPD officers took part in the Young Israel Impact Life Blood Drive, supporting a vital community health initiative while engaging with residents in a meaningful and approachable setting. Officers also regularly attend the University City Farmers Market, where they connect with families, local vendors, and visitors, helping foster positive relationships and open dialogue within the community.

Through participation in these and other neighborhood events, the University City Police Department reinforces its focus on building trust, strengthening partnerships, and maintaining a visible, supportive presence beyond traditional law enforcement activities.
